

Enterprise Workflow Orchestration™ (EWO)

The Challenge

- 30% productivity loss due to context switching
- Fragmented workflows & reporting
- Duplicative data and limited fiscal visibility
- Manual compliance and audit prep
- Slow, rigid legacy systems
- Leadership forced to make decisions with incomplete information

The Solution

- Automated, integrated workflows across mission, cyber, HR, finance, and assets
- Embedded continuous compliance
- Real-time “single pane of glass” visibility
- Interoperable with systems of record: no rip-and-replace
- TRL 6, FedRAMP-ready, deployable in GovCloud or Data Center

Why EWO

- Rapid deployment using outcome-focused playbooks
- Low-cost, scalable, flexible adoption
- Predictable licensing costs; optional managed services
- Proven in Fortune 500 and federal environments

Core Orchestrators

- **Cyber Assurance:** ATO lifecycle, continuous monitoring, automated evidence
- **Acquisition & Finance:** Requirements → closeout, budget alignment
- **Personnel Lifecycle:** Onboarding → separation, audit-ready workforce data
- **Asset Lifecycle:** Assets, facilities, and resource planning

Mission Impact

- **PMs:** Less time on spreadsheets
- **Cyber Leads:** Evidence surfaces automatically
- **Contracting Officers:** Transparent acquisition & financial alignment
- **Leaders:** Real-time insights for informed decision-making

Why Isos Federal

With cleared consultants experienced in government delivery and two decades of enterprise expertise, Isos Federal helps agencies streamline complex operations with secure, scalable workflow solutions. We reduce administrative burden, strengthen compliance, and accelerate mission readiness without costly or disruptive system overhauls.
